

## **Improving Bikeshare Locations at TTC Sites**

**From:** Commissioner Mary Fragedakis

**To:** TTC Board

**Date:** July 10, 2018

### **Summary**

---

The TTC's Corporate Plan 2018-2022 points out that a "less congested Toronto depends on more people combining public transit with active transportation, such as cycling and walking." Furthermore, it advises that the TTC is "working with Bike Share Toronto to increase the availability of bike share docks at subway stations."

However, there have been and continues to be Bike Share Toronto station locations at and/or proposed at subway stations that are less than ideal. The TTC needs to review its approach to interagency co-operation and make sure we have the best possible process for siting Bike Share Toronto stations on and around its property.

### **Recommendation**

---

1. The TTC should do its best to accommodate the requests of Bike Share Toronto and if it cannot for any given subway station, then the TTC should convene a meeting with Bike Share Toronto and the local ward Councillor to explore options.
2. That staff report back to the TTC Board on its bike share location siting process.
