

Instructions

Introduction

The Toronto Transit Commission (TTC) operates and maintains a public transit system within and around the City of Toronto. The system consists of both conventional and specialized transportation services (Wheel-Trans).

Wheel-Trans provides a safe and reliable transportation option for persons with disabilities to travel with freedom and dignity. Applicants may be eligible for Wheel-Trans service if their disability prevents them from using TTC's conventional transit for all or part of their trip. Disabilities may be permanent and/or temporary and are those identified in the Ontario Human Rights Code including, but not limited to physical, sensory, cognitive and mental health disabilities.

Categories of Eligibility

Wheel-Trans offers three categories of eligibility consistent with the *Integrated Accessibility Standards Regulation (IASR O. Reg. 191/11)* and the *Accessibility for Ontarians with Disabilities Act (AODA) 2005*.

- **Unconditional** - A person with a disability that prevents them from using conventional transit.
- **Conditional** - A person with a disability where environmental or physical barriers limit their ability to consistently use conventional transit. An applicant who qualifies for conditional service may be able to use conventional transit for all or part of their trip, but may also qualify for specialized transit under specific circumstances (e.g., weather, travel to a non-accessible location).
- **Temporary** - A person with a temporary disability that prevents them from using conventional transit. An applicant who qualifies for temporary service requires specialized transit for a defined period of time.

Helpful Definitions:

- **Conventional transportation services** (conventional transit) means fixed route service on buses (including community buses), streetcars and subways (including light rail/rapid transit). A significant part of TTC's conventional transit is currently accessible. The remainder will be accessible by 2025.
- **Specialized transportation services** (specialized transit) means pre-arranged door-to-door service, and/or service to and from conventional transit for registered users.
- **Family of services** means combined conventional transit and specialized transit for people with disabilities.

How to Apply for Wheel-Trans Service

The Wheel-Trans eligibility application form (the application) is available on www.ttc.ca/wheeltrans or by calling 416-393-4111. Alternative accessible formats are available upon request.

Persons who believe they qualify for and are interested in becoming Wheel-Trans customers should complete and sign the application. To ensure a fast and seamless application process, be sure to complete the application in full. Incomplete forms may be returned to the applicant for completion.

The Application

Section A contains questions about your everyday mobility and ability to use conventional transit and is completed by you/your representative. **Section A** also requests that you to certify that the information you/your representative have provided to Wheel-Trans is correct.

Section B is your consent to have your health care professional(s) contacted for additional information or clarification if requested.

Section C is completed by your health care professional(s) and requests your health care professional(s) to certify that the information they have provided to Wheel-Trans is correct. If you require more than one health care professional to complete the form, make copies of **Sections B and C**.

Section D is completed by you/your representative and allows Wheel-Trans to share your information with other transit properties within the Greater Toronto and Hamilton (GTHA) area should you wish to travel in other Regions.

Section E is to be completed if you wish to apply for the TTC Support Person Assistance Card. Some Wheel-Trans customers require additional assistance when travelling, and need a support person to travel with them. Under the TTC support person policy and the AODA, a support person is one "who accompanies the person with a disability to help with communication, mobility, personal care or medical needs or with access to goods, services or facilities". Wheel-Trans operators are unable to provide the service of a support person because they are focusing on what they do best; delivering safe and reliable transportation. If you require a support person, one has to be provided by you. If you wish to apply for a card at the same time as you submit your application, complete **Section E** along with your healthcare professional.

In-person Functional Assessments

Wheel-Trans is committed to providing a fair and objective eligibility process for all our applicants. To ensure we correctly match our transit services to your abilities, you may be requested to attend a functional assessment to learn more about your abilities in performing activities related to travelling on transit. Your category of eligibility will be based on the information provided in your application and the results of a functional assessment (if required).

Appeal Assessment

Wheel-Trans is obligated to assess all applicants and determine the correct category of eligibility based on individual abilities. We strive to provide a fair and objective eligibility process resulting in the best level of service for you. However, should you disagree with the eligibility decision; you may wish to request an independent appeal to have the decision reviewed. Additional information on the appeal process, as well as required forms, can be found on TTC's website at www.ttc.ca/wheeltrans or by calling Wheel-Trans Customer Service 416-393-4111.

Instructions

Applicant's Responsibilities

- Fully complete **Sections A and B** of application
- Have your health care professional(s) complete **Section C**
- Complete **Section D** if you wish to travel to destinations outside Toronto but within the GTHA
- Complete **Section E** if you wish to submit your request for a TTC support person assistance card with your Wheel-Trans application
- Photocopy the entire application for your records
- Cover any costs incurred for completing this application or for obtaining additional information

Wheel-Trans Responsibilities

- Ensure each application received has been completed in full and contact the applicant if any information is missing
- Always balance the abilities of the customer with the types of transit services available
- Objectively review each application and notify applicant in writing of decision
- Contact the applicant if submission of application results in a request for an assessment
- Provide the opportunity to an independent appeal process should the applicant disagree with the eligibility decision
